

ScoboVault - Pitch Deck

ScoboVault is a Dubai-based intelligent SaaS studio. We build scalable digital products that empower local professionals and independent creators across emerging markets.

Our Mission

To accelerate the future of independent software by launching lean, validated, and scalable SaaS products for underserved markets.

Our Products

Hora Certa Smart scheduling platform for small service providers.

Verbum AI-powered multilingual learning with gamification.

Locly Connects people to local services and events.

EasyQuote Quotation generator with integrated payment for freelancers.

LiveSheet KPI dashboards that auto-update from spreadsheets.

Our Culture

We are building a strong, joyful community where happiness matters more than hustle. We don't believe hard work is the only path to success — it's just one of many. Here, you're welcome to take a break when life demands it, without fear for your career. We stay forever connected to innovation, driven by curiosity, love for the world and all its wonders. We support every idea, every dream and every member. Whether we're two people, four million or just four magical thinkers — we are one community. No restrictions. No barriers. No bias. We welcome all: any belief, any identity, any orientation or any spirituality.

Vision & Growth

We aim to expand ScoboVault into a global digital studio operating across Europe, the Middle East and Africa. With scalable SaaS units, recurring revenue and AI-driven innovations, we project sustainable growth and global impact.
